

Reporting Cyberbullying

Making a formal complaint to the eSafety Commissioner

Making a complaint to the eSafety Commissioner is split into two categories:

1. Under 18 year olds – make a cyberbullying complaint
2. 18 years or older – make a cyber-abuse complaint

A child can directly report cyberbullying to the eSafety Commissioner OR an adult may report on the minor's behalf

What to expect when making a complaint on behalf of a minor

Adults who make a complaint on behalf of a minor will be asked a series of questions:

- Their assessment on the child's welfare
- What type of further support the adult would like regarding information around cyberbullying and working with the school
- Their permission to be contacted, if required
- Where the harm is occurring (which online devices and/or platforms)
- If they have been able to capture evidence (by providing it)
- Contact details of reporter and identification of the child

Reporting Cyberbullying and Cyber-abuse to the eSafety Commissioner

STEP 1 - Collect evidence, where possible.

STEP 2 - Report the abuse to the platform it occurred.
After 48 hours, if abuse is still occurring and/or has not been removed from the platform, then formal action can be taken

STEP 3 - Make a complaint via the eSafety Reporting Portal, providing evidence and contact details
